DETAILED ACTION

Allowable Subject Matter

1. Claims 20-26, 28, and 30-32 are allowed.
2. The following is an examiner's statement of reasons for allowance:

As discussed in applicant's response (received 20 November 2006), Stammer et al. and Brown et al. are not combinable and, even if combined, do not teach at least two speech recognition engines which are "specific to a non-dialing feature" of a device. While the prior art of record teach multiple speech recognition engines which are "specific" to vocabulary (e.g. a digit recognition engine), the engines are not specific to a non-dialing "feature" of a device. That is, a functionality provided by the device (e.g. CALANDER, EMAIL, FAX, etc.) that has an associated speech recognition engine (e.g. a CALANDER engine, EMAIL engine, FAX engine, etc.).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
